VALVES FOR HEAVY DUTY AND AUTOMATION

Oasis Valves & Pneumatics, is part of "Oasis Group" established four decades back with a humble beginning of dealing in pneumatic analog indicators. In 2008 Oasis Valves & Pneumatics was established with the idea to cater to the growing automation market and focussed on supply and service of valves. In 2015 it was decided to enter into the segment of servicing and automation of heavy duty valves for which a larger premises is built on outskirts of Hyderabad.

We specialize in supply, servicing and automating manual valves of any size and dimension.

BUTTERFLY VALVES

Application Details :

- ◆ Water pipelines related to power
- ◆ Generation facilities
- ◆ Water treatment plants
- ◆ Major water supply & distribution lines
- ◆ Pumping plants

GATE VALVES

Application Details :

- ◆ Gate valves in air, fuel gas, feedwater, steam, lube oil and other systems are typical applications.
- ◆ Gate valves are used in many industrial applications including the oil and gas industry, pharmaceuticals, manufacturing, automotive, and marine.

GLOBE VALVES

Application Details :

- ◆ Cooling water systems where flow needs to be regulated.
- ◆ Turbine seals and drains.
- ◆ Turbine lube oil system and others.
- ◆ Feedwater, chemical feed, condenser air extraction, and extraction drain systems
